

## Le puzzle à découper

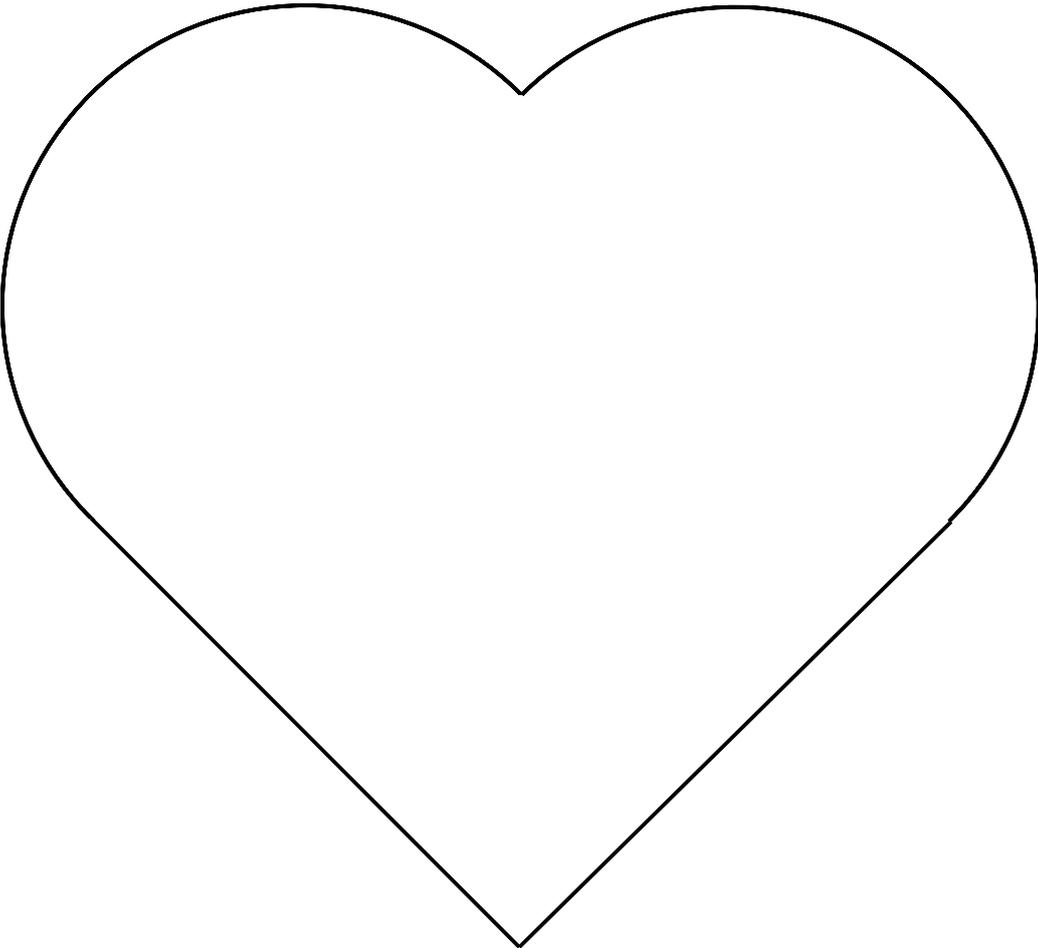

Les propositions qui suivent ont été créées dans les années 90 par des élèves de Quatrième d'Aide et de Soutien du collège de Saint-Mihiel (Meuse).

Elles ont formé la base d'un stand d'exposition présenté à d'autres élèves.

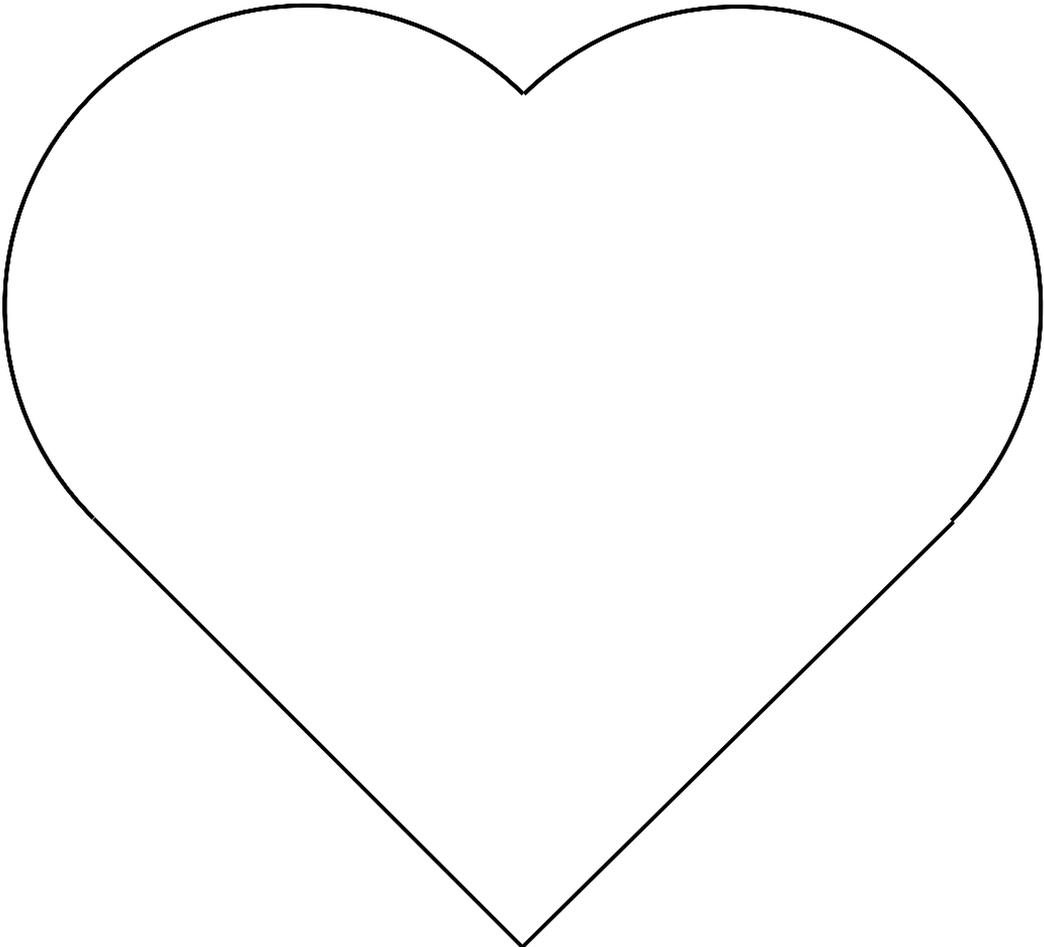

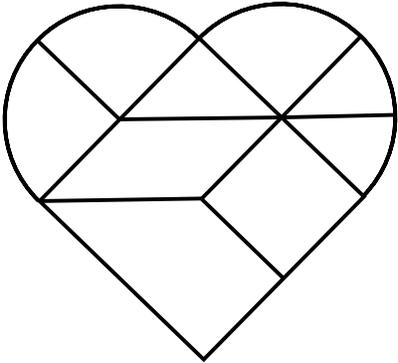

Leurs dessins ont été informatisés. Pour chacun d'entre eux, trois possibilités sont fournies : La silhouette à recouvrir, la solution à l'échelle des pièces du puzzle, la silhouette à recouvrir complétée par la solution à échelle réduite.

L'ensemble pourra être utilisé par des élèves de maternelle (il faudra sans doute rappeler que les pièces peuvent être retournées). Les puzzles confiés aux élèves gagneront à être photocopiés sur du papier de couleur puis plastifiés.
